

These Demos are to be done before the reading of the Endorsement Pretest Instructions

Quick Stop Demo: We are doing this demo to show the students to not be abrupt on the controls and still come in under the required stopping distance. Set cones as markers at the max distance.

Run 1: 30MPH place cone at 53ft.

Run 2: 25MPH place cone at 36ft.

Run 3: 20MPH place cone at 22 ft

Figure 8 Demo

Run 1: Correct Path of Travel, but over on time. Try and shoot for 24 seconds

Run 2: Good time but show path of travel violations. 1 POT violation on each corner.

Run 3: Good clean run. Not the best you can do, but what we typically see from students in the 18 second range.
